for a package or further information.

Dear Teacher,

This information package is being sent out to all the teachers of Registered Schools with the Reflexology Registration Council of Ontario (RRCO) to assist the teacher in presenting the RRCO to the Reflexology student. The Council is made up of 6 appointed seats representing the founding member schools and 7 elected seats from Registered Reflexologists in the community. The RRCO has been meeting since 1998 to further establish Reflexology as a fully recognized profession and to protect our identity and right to practice Reflexology in the province of Ontario.

Over the years the RRCO has played a major role in educating both the municipal governments and the public, to emphasize the importance that Reflexology services remain available to the community. Council Representatives have met with government officials and spoken at public hearings on behalf of all Reflexologists and have been instrumental in creating new laws which protect our right to practice.

There are now over 10 registered schools with the RRCO that meet minimum standards. At this time only graduates of these schools are eligible to register. This ensures the public that the Certified and Registered Reflexologist has met with educational and professional criteria.

Enclosed you will find information that can be easily distributed to your students:

Brochure outlining the mandate of the RRCO, its history, the benefits of registration and information on how to register;

-Registration Application;

-The Code of Ethics for the Registered Reflexologist;

-A sample Newsletter that is published quarterly.

The RRCO is a non-profit organization and all Councilors offer their time and energy on a voluntary basis.

We hope that you as a teacher will take a leadership role in furthering unity and harmony amongst Reflexologists in the province of Ontario to strengthen our profession and encourage your students to be a part of this growing body of Registered Reflexologists.

Please contact the RRCO if you have any questions.

Sincerely,

The Councilors of the Reflexology Registration Council of Ontario (RRCO)
